

# Meeting 10

Date: 2016-02-19 10:00 Location: Idegr5 Attending: Dennis, Johan, Simon, Ivar, Jonathan (Skype) Absent: Richard	Moderator: Simon Secretary: Johan
---	--------------------------------------

## Minutes

- Status report
- Report supervision
  - Words of wisdom from last time
  - Next appointment?
- Half-time presentation
- Working with the backlog
- Next meetings

## Protocol

### Status report

Ivar: made oi-file related work in python.

Dennis: worked with a prototype of representing an oi file in json format

Johan: some work on oi to interpreter

Simon: report supervision, vis.js work with some success, it's missing built in animation tool.

Jonathan: more work on conway prototype

## Report supervision

A summary of Tuesday's supervision.

- Keep it simple. Short concrete sentences.
- AV was not defined
- Scrum-section was too long
- Update sprint-length in documentation
- Merge paragraphs
- Delimitation: should we be able to visualize anything?
- They felt like the report was good in general

Ivar: Maybe do a read-through as a group

Next supervision: 13 april

## Half-time presentation

Tool used for slides: Google Presentations

Work with presentation structure after this meeting. Presentation should be two persons, decide after meeting. Move prasad meeting to wednesday/thursday.

## Working with the backlog

Right now working with separate prototypes. Future project will be to create a centralized system with the help of backlog. Presentation & Prototypes is current focus.

## Next meetings

Idegr 7 Monday at 10

Idegr 5 Friday at 10
