

Prasad meeting

Presentation

Date: 2016-02-23

General

- The slide should be the object of discussion
 - Preferably quick illustrations
- Tell people that programming is full of soul-destroying boring crap and we're making it better (sell it!)

Slide specific

- Intro:
 - What is *modulär visualisering*? Remove *modulär*?
- Bakgrund:
 - It's not certain if the slide is **supporting** (good!) or **completing** (bad!) the talk
 - Remove whole sentences
 - Visualize! (that should be our thing right?)
 - Show parts of the videos
 - What is our statement?
- AV vs PV:
 - More visuals! We're the actors!
 - V - P
|
A
A: pseudo code
P: language
 - Arrow, AV to PV, markup on top
- Nuvarande tillstånd
 - Keep, but shorten the text blobs
 - What is a good visualization? How do we measure it? How is an AV useful?
- Visualiseringsverktyg
 - Old does not equal bad
 - Create concrete critique!
 - (Yet again) visualize the bad interfaces, with concrete critique, we are trying to walk away from
 - BE CONCRETE
- Vårt mål
 - Why can't we build upon other projects? ← *Answer this*

- Not OSS, bad ideas, etc
- Milestones
 - Visual prototypes needs to be extended
 - Swap some milestones
- Demo
 -
