 - Is "who did what" represented in our site?
 - Separate column for "Prasad meetings" on the site.
- Follow-up from Prasad meeting. Vision change?
- Move Vision into Latex-Report
- What about the project planning?
- Divide Tasks?
- Documentation
- Next meeting

Protocol

Prasads' mail

Is "who did what" represented in our site?

Maybe create progress bar. Somehow represent a current state.

Follow-up from Prasad meeting. Vision change?

see document 'meeting 2 with Prasad', same folder.

We might consider cutting out the "Data" part, relieving our responsibility of creating a local library within for example Java. We will have a workshop after current meeting about this.

Move Vision into Latex-Report

Not yet, but maybe soon create a running build that is updated frequently.

What about the project planning?

Should we halt the project planning and start dreaming?

Wait to finish the project planning report until we are done with Vision.

Divide Tasks?

Create status report (Jonathan make one on the website) and vision.

Gantt schedule

Spreadsheet for todo's

Use Cases

Documentation

Requirements spec, use cases.

Next meeting

Friday 29/1 - 10:00 Room 6207
