- Vocabulary
- Group diary (Todo/Log)
- Teambuilding
- Backlog
- Trello
- Next meeting
- Tasks until next meeting

Protocol

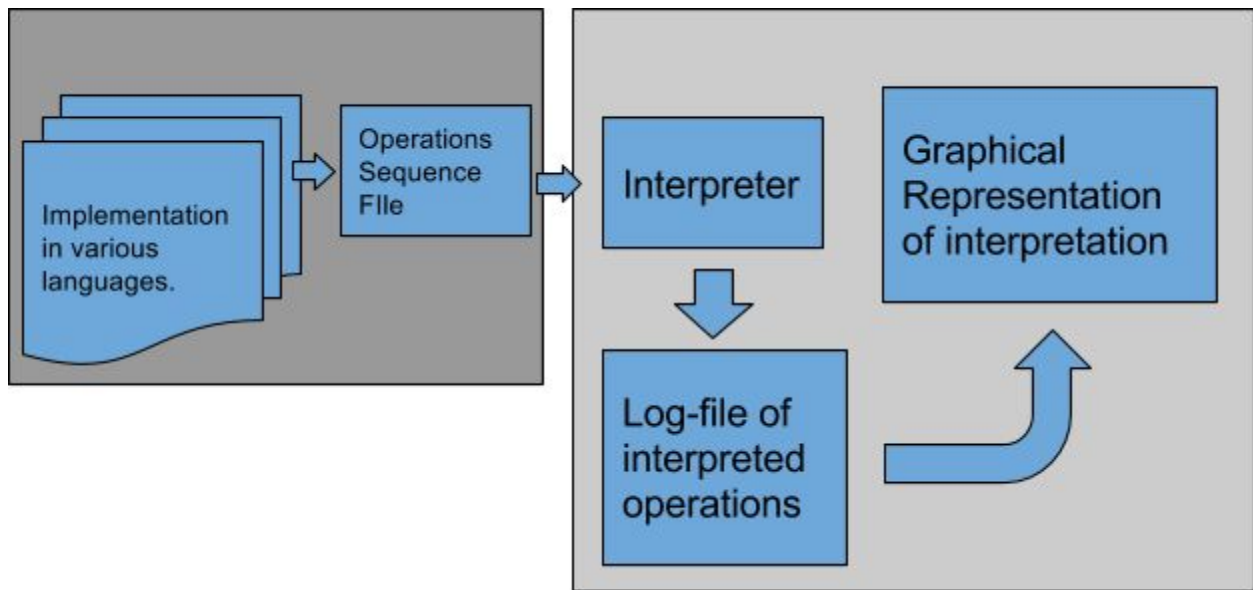

Status report

- Ivar
There is a draft of the vision and the planning report is going strong.
- Dennis
Vocabulary

- Jonathan
Focused on a lab in a different course this week
- Simon
Suddenly surgery - When surgery doesn't ask.
- Richard
Translated the planning report draft
- Johan
Planning report and tested annotations in python

Vision

The vision is more well defined. The interface requirements, and what you get from what you put in is more defined. See the vision document.

Planning Report

Move the planning report to LaTeX as bibliography is a hassle in google docs. Richard is responsible for the document. The planning report will be worked on after the meeting.

Citation system

As we're using LaTeX, we can switch on the fly so it's really not an issue right now.

Tutor occasion

Feedback on planning report, book a tutor from Biblioteksservice. Booking a meeting 11/2 13:00-14:00.

Vocabulary

We need a vocabulary so that we know what we talk about. Ivar fixes this.

Group diary (Todo/Log)

Remove group diary from Todo/Log, and add the Gantt Schema to the Todo/Log.

Teambuilding

We should do something that's not just the thesis.

GG Bar, meet at chalmers wednesday 10/2 - 17.00

Backlog

Make a backlog, the pool of tasks. It's an iterative document. It will be done next week.

Trello

Everyone is logged in

Next meeting

Next meetings will be on monday 10:00 in idéläran gr11 and friday 10:00 in gr5.

The next meeting will cover the Planning Report. Everyone should have used the vocabulary.
