Meeting 2

with Prasad

on website

- status report - For every state a short on summary on what we are doing.
- Project planning, Gantt chart, maybe use some tool to visualize dependencies among other things.
- project pitch
- Poster

to do next:

- Widen our perspective, seek inspiration; look at other visualization tools; What do we want to visualize?; how could our system be used to visualize any kind of data, not only simple data structures but for example emergent systems, city planning, anything..
  http://spotfire.tibco.com/
  http://algoviz.org/avcatalog
  http://www.red3d.com/cwr/boids/

- Focus more on just markup and AV-module to begin with.
- Documentation: requirements spec, use cases.
