Meeting 4

Date: 2016-01-29 Location: 6207 Attendance: Dennis Jönsson, Simon Smith, Johan Gerdin, Richard (Skype), Jonathan Skårstedt	Moderator: Jonathan Skårstedt Secretary: Johan Gerdin

Minutes

- Vision
- Status report
- Planning report
- Requirements
- Research
- Next meeting

Protocol

Vision

Feels complete, Richard supplied a good example and Simon had created an overview model which both complement each other.

Status report

Needs to go up on the website soon
We have a pretty complete and unified vision that could be put into words on the web-page.

Planning report

When can we start make an initial plan for early stage tasks and this vision?

where are we on the planning report?
We will try a "scrum-way" of dividing tasks and for example with the planning report we will let one person each write a section and the examine next meet-up.
Jonathan will soon finish the gantt schedule.

Requirements

We will all look over the requirements Dennis put up and evaluate them, inserting or changing if we do not feel like they fit the bill.

Research

We have some sources which look like what we want to implement.

Next Meeting

Dennis will put up a method document.
Look-up material on graphics (for example how to paint a graph correctly)
Meeting 5 will be on Tuesday 2/2 10:00 at 5211 after the meeting with Prasad.
